Lauren,

Thank you for convening the call today, it was helpful.

I would like to discuss the information provided on today's call with Syracuse China's general counsel, and to review the materials you provided today, as well as to talk to a few of my colleagues about your request that we consider performing an RI/FS at this site. I will probably need at least 2 additional weeks to complete that given my travel schedule next week and the Thanksgiving holiday the following week. May Syracuse China have until the 30th to respond to your request?

Jean
